

Egg Printing Machines

We supply Egg Printing Machines. The HISPEED® Egg Printing Machine is a double head inkjet printer. The Egg Printing Machine has a colour touch screen control panel, you can create and edit a printing message on the screen or download an image from a USB and set them as printing message. The intelligent photoelectric sensor system, only triggers printing when eggs run through the photoelectric sensor. The uniquely designed cartridge suspension system makes sure that eggs of different sizes can be printed. The HISPEED® product covers a whole range of machines for the egg processing industry, such as, egg grading, egg washing, egg printing, egg detecting and egg processing etc. Our passionate and friendly experts in egg processing field and a network of agents and dealers throughout the world will ensure your investment on egg processing equipment is reliable. We are expecting to become your long term partner in China.
