

## Egg Separators

We supply Egg Separators. The HISPEED® Egg Separator is made of stainless steel for great durability and hygiene and designed for breaking eggs and separating egg yolks, egg whites and eggshells with capacity of 3000 eggs/hour. The HISPEED® Egg Separator is comprised of a feeding conveyor, a spinning plate equipped 5 robotic arms with special knives and an egg yolk & white separating trough. Workers need to only place the eggs onto the feeding conveyor, the conveyor sends eggs to the robotic arms, the arms will catch any rolling eggs and cut the shell with special knives. The full egg liquids will flow into the trough, where the egg whites will be separated from the egg yolks. Has a compact structure and less storage space, it is equipped with 5 locking casters on the allow for easier movement. The HISPEED® product covers a whole range of machines for the egg processing industry, such as, egg grading, egg washing, egg printing, egg detecting and egg processing etc. Our passionate and friendly experts in egg processing field and a network of agents and dealers throughout the world will ensure your investment on egg processing equipment is reliable. We are expecting to become your long term partner in China.
